http://www.hazelden.org/web/go/projectnorthland	

Program Description: Project Northland is a multilevel intervention involving students, peers, parents, and communities in programs designed to delay the age at which adolescents begin drinking, reduce alcohol use among those already drinking, and limit the number of alcohol-related problems among young drinkers. Administered weekly to adolescents in grades 6–8, the program has a specific theme within each grade level that is incorporated into the parent, peer, and community components. The 6th-grade home-based program targets communication about adolescent alcohol use through student-parent homework assignments, in-class group discussions, and a communitywide task force. The 7th-grade peer- and teacher-led curriculum focuses on resistance skills and normative expectations regarding teen alcohol use and is implemented through discussions, games, problem-solving tasks, and role plays. During the first half of the 8th-grade Powerlines peer-led program, students learn about community dynamics related to alcohol use prevention through small-group and classroom interactive activities. During the second half, they work on community-based projects and hold a mock town meeting to make community policy recommendations to prevent teen alcohol use.

Protecting You/Protecting Me (PY/PM)

Program serves specific or general population	Specific population
Number of youth served	3,246
Number of parents served	No data
Number of caregivers served	No data
Program has been evaluated	Yes
Evaluation report is available	Yes
URL for evaluation report:	No data

URL for more program information: <http://www.hazelden.org/web/go/pypm>

Program Description: PY/PM is a 5-year classroom-based alcohol use prevention and vehicle safety program for elementary school students in grades 1–5 (ages 6–11) and high school students in grades 11 and 12. The program aims to reduce alcohol-related injuries and death among children and youth due to underage alcohol use and riding in vehicles with drivers who are not alcohol free. PY/PM consists of a series of 40 science- and health-based lessons, with eight lessons per year for grades 1–5. All lessons are correlated with educational achievement objectives. PY/PM lessons and activities focus on teaching children about:

1. The brain—how it continues to develop throughout childhood and adolescence, what alcohol does to the developing brain, and why it is important for children to protect their brains.
2. Vehicle safety, particularly what children can do to protect themselves if they have to ride with someone who is not alcohol free.
3. Life skills, including decisionmaking, stress management, media awareness, resistance strategies, and communication.

Lessons are taught weekly and last 20–25 minutes or 45–50 minutes, depending on the grade level. A variety of ownership activities promote students’ ownership of the information and reinforce the skills taught during each lesson. Parent take-home activities are offered for all 40 lessons. PY/PM’s interactive and effective teaching processes include role playing, small group and classroom discussions, reading, writing, storytelling, art, and music. The curriculum can be taught by school staff or prevention specialists. PY/PM also has a high school component for students in grades 11 and 12. The youth-led implementation model involves delivery of the PY/PM curriculum to elementary students by trained high school students who are enrolled in a peer mentoring, family and consumer science, or leadership course for credit. The program’s benefits to high school students are derived from learning about the brain and how alcohol use can affect adolescents, serving as role models to the elementary school participants, and taking coursework in preparation for delivering the curriculum.

Additional Underage Drinking Prevention Programs Operated or Funded by the State

Program description: No data

Additional Clarification

The state funds only two programs (Project Northland and Protecting You/Protecting Me) that are specific to underage drinking. The state funds additional prevention programs that are broader in scope as they address alcohol, tobacco, and other drugs.
